LOGITECH STRONG USB

The innovative Logitech Strong USB cable combines the plug-and-play ease of USB with the pull strength and in-wall ratings of specialized cabling.

Available in 10 and 25 meter lengths (32.8 and 82 ft) Logitech Strong USB cable delivers up to five times the reach of ordinary USB cables. And because Logitech Strong USB is aramid-reinforced, plenum-rated, and Eca certified, you can hide cabling in walls, above ceilings, or within standard 3/4" conduit.

6:54 AM 2/8/2019

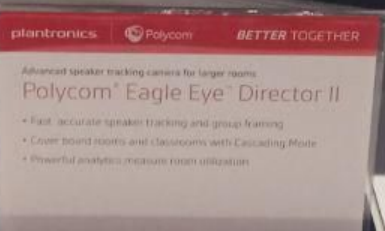

The image shows a Zoom meeting window on a monitor. At the top, it displays the meeting ID '970-312-959' and a 'Turn off Original Sound' button. Below this is a 'Speaker View' button. The main area contains two video thumbnails. The left thumbnail shows a man in an orange shirt, identified as 'Jon Schau', sitting at a white table with his hands clasped. The right thumbnail shows a man in a blue shirt, identified as 'Brian Phillips', holding a smartphone up to take a photo, with another man in an orange shirt and a man in a black shirt standing next to him. At the bottom of the window is a control bar with icons for 'Unmute', 'Stop Video', 'Invite', 'Manage Participants', 'Share', 'Chat', and 'Record'. On the far right of the control bar is a red 'End Meeting' button. Below the Zoom window, a Windows taskbar is visible with a search bar and several application icons. The system tray on the right shows the time as 6:54 AM on 2/8/2019.

University of Oriente, Santiago de Cuba

University staff commends high quality of communication, cross-platform capability and competent technical support. TrueConf Server was extremely easy to deploy, while TrueConf accounts were distributed among multiple employees throughout the university branches. Employees use their own PCs with mobile devices with installed TrueConf application to the server and participate in video

Complete and stable systems that we have we also had great attention from technical to answer all our questions.

Ernesto Eduardo Diaz Conde, Director at University of Oriente, Santiago de Cuba

Anygraaf Oy

Anygraaf

About organization

Anygraaf Oy produces cloud software designed to improve business relationships. With over 20 years and 15,000 clients, a Finnish company provides services to various newspapers, magazines, book publishers and government agencies. Successful business in this sphere would not be possible without efficient enhancements to ensure mobility, responsiveness, appeal, and cost effectiveness.

Problem

Anygraaf Oy operates a number of branches in Sweden, the Netherlands, Central and South America. One of the biggest challenges has been providing communication between distant business units and cutting travel expenses. As employees were required to travel between several branches to discuss and resolve working issues. At the same time, the company wanted to save its investments and cut travel expenses. As a successful publishing business with multiple daily partner meetings, Anygraaf Oy needed a quality United Communications and collaboration platform which would become an indispensable assistant for important business discussions and would be easy to install.
